EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the attorney of record, Catherine M. Voorhees, on April 23, 2007.

The application has been amended as follows:

Claims 1-4 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record discloses a bowl mill for a coal pulverizer with an air mill for primary entry of air comprising a bowl-like grinding table mounted on a shaft; a plurality of cooperating grinding rolls; a multiple entry annular openings; and the multiple entry annular openings. However, the prior art of record does not disclose or render obvious all of the details of the limitations of independent claim and, in particular, a bowl mill for a coal pulverizer with an air mill for primary entry of air wherein the air mill with an outer wall is disposed under the bowl-like grinding table, and further comprises an inlet which is bifurcated with a partition allowing half of a primary air entering inlet to enter the air mill through a first opening and the other half of the primary air entering

inlet to enter a duct leading to a second opening whereby partition splits entry of the primary air into the air mill into two streams of air.
